PROFILE

A final-year Business Administration student at KNUST with self-taught skills in software development. Experienced in building and deploying production-quality web applications using JavaScript, TypeScript, React, and Next.js. Has practical experience in API integration, code reviews, and collaborative development through an ongoing frontend engineering internship. Brings strong analytical thinking, adaptability, and a demonstrated willingness to take initiative across both technical and business contexts.

SKILLS

Programming Languages: JavaScript, TypeScript, Python, HTML, CSS

Frontend Technologies: React, Next.js, React Native (Expo), Tailwind CSS, Framer Motion, Recharts

Tools & Platforms: Git, GitHub, REST API, Vercel, Render, Supabase, MongoDB, Figma, VS Code, AI

Office & Productivity: MS Word, Excel, PowerPoint, Sway

Professional: Analytical Thinking, Problem Solving, Teamwork and Collaboration, Communication, Adaptability, Time Management, Attention to Detail

WORK EXPERIENCE

Front-end Developer Intern – Nixzoe Inc., Calgary, Canada (Remote) January 2025 – Present

Duties

- Develop and maintain responsive web and mobile application interfaces using React and TypeScript as part of a collaborative frontend development team.
- Translate design specifications into functional, accessible user interfaces, applying best practices in component architecture and state management.
- Integrate third-party REST APIs to enable dynamic, data-driven features within production-facing applications and ensure cross-browser compatibility across delivered features.
- Participate in code reviews, software testing and offer feedback to improve overall code quality and maintain consistency across codebases.
- Debugging, troubleshooting, and resolving UI and integration issues across development and production environments, ensuring application stability and consistent user experience.
- Support software deployment workflows using Vercel, managing version control via Git and GitHub throughout the development lifecycle.

Finance Intern – SMEC, Accra (On-site)

September 2023 – November 2023

Duties

- Maintained and organised financial records, filing documentation systematically to support audit readiness and regulatory compliance.
- Managed petty cash records and reconciled receipts, ensuring all transactions were accurately captured and accounted for.
- Assisted with the preparation and processing of finance-related administrative paperwork, contributing to the smooth running of day-to-day departmental operations.
- Coordinated the submission of Tax Clearance Certificates to the appropriate regulatory organisations, ensuring required deadlines were met.

EDUCATION

BSc. Business Administration – Management

Expected September 2026

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

First Class Honours

General Arts (High School Education)

September 2019 – September 2022

St. Augustine's College, Cape Coast, Ghana

PERSONAL PROJECTS

[Assau](#) | **Investment Appraisal Software Application | Next.js, React, TypeScript, Tailwind CSS**

Built an investment appraisal tool to perform structured financial analysis using 9 metrics: net present value (NPV), internal rate of return (IRR), payback period calculations, among others. Designed to bridge financial theory and practical decision support, the application presents results in plain English and supports informed investment evaluation.

[Exchangio](#) | **Multilingual Currency Converter App | React, TypeScript, Tailwind CSS**

Designed and developed a multilingual, real-time currency converter that provides live exchange rates and historical rate visualisation using interactive charts. Features include multi-currency comparison, a language switcher for international usability, and a fully responsive interface across devices.

ACHIEVEMENTS/AWARDS

Best General Arts Student (2022), St. Augustine's College

Ghana National Petroleum Corporation Scholarship (2024 - 2026), KNUST
